FULL STACK SOFTWARE ENGINEER

EXPERIENCE

Event Farm
Software Engineer
Feb 2016 - Present

Test Drove the re-architecture of the API code base, decoupling the app from a CakePHP 2.x to an application that maintains over 85% code coverage, and was built using Domain Driven Design with a healthy flavor of CQS (Command Query Separation).

Authored middleware applications for internal and external projects in languages from Golang to Node.js, independently deployable, all as separate working pieces to our PHP API, the "Core" platform.

Headed the custom integrations between Event Farm and Salesforce, a market leading integration between the two platforms. A PHP interface to the Salesforce Rest API was built for the integrations and has been open sourced and made available on Github.

Created auto generating API Client Libraries (SDK's) for the Event Farm API in PHP, Typescript, Golang and Python.

Digital Canvas Design LLC
Owner, Software Developer
Jan 2014 - Present

Managed web servers and applications for clients, historically built and deployed LAMP/LEMP stacks, recently bouncing between Golang, Node.js, and PHP7.1+.

Freelancer
Aug 2008 - Dec 2013

Deployed and secured Linux and BSD servers ranging from firewalls to webservers and NAS machines both internal and external.

Web Services LLC
Full Stack Web Developer
June 2014 - Oct 2015

Developed web applications for local and national news stations to engage the public and generate ad revenue. By scraping government data, we built applications that ranged from Adopt-A-Pet listings to Restaurant Inspections.

Maintained LAMP stacks on CentOS dedicated private server receiving anywhere from 10,000 to 1,000,000 daily requests.

Led development of AdStat, an Ad Agency CTA/ROI Software, Analytics for TV Campaign Spending. Utilized Laravel, MySQL, MongoDB, AngularJS, Gulp.

Ace Printing & Graphics
Graphic Designer
May 2011 - Dec 2013

Designed and created graphics for banners, billboards, logos, and websites while communicating with clients to create projects from concept to finished, printed works.
